S I R :

This supplements the INFORMATION DISCLOSURE STATEMENT filed October 11, 2005 in which the PTO Form PTO/SB/08A identified all of the references cited in the International Search Report of WO 2004/042114 A2 which is the 18-month publication of GB 0226101.4 filed November 8, 2002 of which the present application is a national phase application. U.S. patent family members were cited for all but two of the cited publications and copies of same were not required. However, copies of the EP 0 245 557 and EP 1 188 761 are enclosed herewith, since a U.S. equivalent was not available.

It is requested that the publications be considered with respect to the patentability of the present invention and that an initialed copy of the enclosed Form PTO/SB/08A be returned to applicants to indicate that such publications have been considered and made "of record."
